EXAMINATION : JUNE - 2023

SEMESTER - VI

Sub: Digital Marketing (BCA- 644-18)

Date : 22/06/2023

Total Marks : 60

Time: 10.00 am to 12.30 pm

Instructions:

1. All questions are compulsory unless and otherwise stated.
2. Bold figures to the right of every question are the maximum marks for that question.
3. Candidates are advised to attempt questions in order.
4. Answers written illegibly are likely to be marked zero.
5. Use of scientific calculators, Log tables, Mollier Charts is allowed.
6. Draw neat and labelled diagrams wherever necessary.

Q.1. Fill in the blanks.

(5)

1. Which of the following metric is used for tracking the status of email marketing?
a) Conversion Rate
b) Open Rate
c) Bounce Rate
d) All of the above
2. SEO stands for ____
a) Search Engine Optimization
b) Search Electronic Optimization
c) Search Engine Optimum
d) None of above
3. The hyperlink refers to a _____.
a) Inbound link
b) Outbound link
c) IFTTT link
d) KPI link
4. Where do we use keywords?
a) Tags
b) Title
c) Description
d) All of the above
5. Whenever user opens any website then main page is called as
a) Home Page
b) Backend Page
c) Dead End
d) None of these

Q.2. State True/False.

(5)

1. Influencers are people on social media platforms who influence their followers with their opinions.
2. Search engine results pages are web pages served to users when they search for something online using a search engine.
3. SERPs contain only "Paid" results.
4. Domain name is unique name.
5. Backlinks are useful for SEO.

Q.3. Answer the following. (Solve any 5)

(10)

1. What is Google Indexing?
2. What is Content Marketing?
3. What is Website traffic?
4. What is Responsive website?
5. What is Landing Page?
6. What is Organic & Inorganic SMM?

Q. 4. Answer the following in detail. (Solve any 6)

(30)

1. Explain the factors that influence to rankings.
2. What is Hosting? Explain types of hosting.
3. What is Google Analytics?
4. Explain process of website optimization.
5. Explain the term SMM.
6. What is SMO? Explain it in brief.
7. Explain the term Email Marketing.

Q. 5. Answer the following in detail. (Solve any 1)

(10)

1. Explain OnPage and OffPage SEO.
 2. Explain the following terms –
a. Crawler b. Ranking c. Indexing

SEMESTER - VI

**Sub: Android / Current Trends in IT (CTIT) (BCA-642/BCA-642-18/BCA-642-20) /
 Mobile Application Development (BCA-CS-642-20)**

Date : 21/06/2023

Total Marks : 60

Time: 10.00 am to 12.30 pm

Instructions:

1. All questions are compulsory unless and otherwise stated.
2. Bold figures to the right of every question are the maximum marks for that question.
3. Candidates are advised to attempt questions in order.
4. Answers written illegibly are likely to be marked zero.
5. Use of scientific calculators, Log tables, Mollier Charts is allowed.
6. Draw neat and labelled diagrams wherever necessary.

Q.1. Fill in the blanks.

(5)

1. -----is a founder of Android.

a) Guido van Rossum	b) Bill Gates
c) Andy Rubin	d) Steve Job
2. setContentView() method is called to-----

a) Set the activity to an explicit view	b) Set the fragment to an explicit view
c) Set the contentprovider to an explicit view	d) Set the service to an explicit view
3. -----displays the message regarding the status of operation initiated by the user.

a) fragment	b) Activity
c) toast	d) Service.
4. -----folder is used to store icons used for application.

a) java	b) res
c) mipmap	d) layout
5. AVD stands for-----

a) Active virtual device	b) Android virtual device
c) Active virtual display	d) Android virtual display

Q.2. State True/False.

(5)

1. Android services doesn't have user interface(UI)
2. Activities and services are register in menu file.
3. In android, an activity represents a single screen with a user interface.
4. A fragment manages access to a central repository of data.
5. Dex compiler converts Java bytecode into Dalvik bytecode.

Q.3. Answer the following. (Solve any 5)

(10)

1. What is emulator?
2. What do you mean by intent?
3. What is array adapter? Write down the syntax to declare arrayadapter.
4. What is fragment?
5. What are the services in android?
6. What is `getApplicationContext()`?

(30)

Q. 4. Answer the following in detail. (Solve any 6)

1. Write in details layers of android framework.
2. Explain implicit intent with example.
3. What are the 3 menus in android? Write down the code to create any one of them.
4. Write a short note on Android Layout
5. How to send information from one activity to the other. E.g. accept name from user and greet the user on the other activity.
6. Write a short note on components of android.
7. Explain any five UI Components of Android application.

(10)

Q. 5. Answer the following in detail. (Solve any 1)

1. Describe life cycle of android activity with diagram.
 2. Explain database handling in android using SQLite Database.

Q.1. Fill in the blanks.

(05)

1. Para virtualization is also known as _____.
a) OS-assisted virtualization b) OS-based virtualization
c) OS-level virtualization d) OS virtualization
2. SAN stands for _____.
a) Storage Area Network b) Secured Area Network
c) Storage access Network d) Secured access network
3. _____ management is both process and service
a) Backup b) Operational readiness
c) Configuration d) Systems
4. DHCP is used for _____.
a) IPv6 b) IPv4
c) Both (a) and (b) d) None of the mentioned
5. Cloud computing is a _____ system and it is necessarily unidirectional in nature.
a) stateless b) stateful
c) reliable d) all of the mentioned

Q.2. State True/False.

(05)

1. Cloud can be termed as Network or Internet.
2. Cloud Computing offers load balancing that makes it more reliable.
3. Cloud computing networks are designed to support only private or hybrid clouds.
4. Cloud computing provides not a on-demand self service.
5. Service Models are the reference models on which the Cloud Computing is based.

Q.3. Answer the following. (Solve any 5)

(10)

1. Define Hypervisor.
2. Define IDaaS.
3. Define Private cloud.
4. What is business on demand?
5. Define RAID.
6. What is pay per use model?
7. What is hybrid cloud?

Q.4. Answer the following in detail. (Solve any 6)

(30)

1. Explain NAS architecture.
2. Describe SOA with diagram.
3. Describe utility computing in detail.
4. Explain DNS server.
5. Explain SAN architecture
6. Explain virtualization using diagram.
7. Explain deployment models of Cloud Computing. Explain using diagram.

Q.5. Answer the following in detail. (Solve any 1)

(10)

1. Explain Hyper-V architecture.
 2. Explain RAID implementation

d) All of the above

Q.2. State True/False.

(5)

1. In android, user interface files (UI) are stored in mipmap folder.
2. Gradle is used to define settings for entire project.
3. OHA stands for Open Handset Alliance.
4. Content providers are used to navigate from one activity to another.
5. SQLite is opensource database.

Q.3. Answer the following. (Solve any 5)

1. What is android emulator?
2. What is a service in Android?
3. Write down any 2 features of android.
4. Which languages are used to build android application using android studio?
5. What do you mean by wrapcontent & match Parent?
6. What is DVM and state role of the DVM?

Q. 4. Answer the following in detail. (Solve any 6)

1. What is adapter? Write down the syntax to create arrayadapter.
2. What is View and View Group? List any 3 layouts available in android.
3. Explain different components in android.
4. Explain various types of Android UI Controls.
5. What is a service? Explain its types.
6. What are the contents of res folder.
7. Write down java program to add country names, accept it from user into spinner.

Q. 5. Answer the following in detail. (Solve any 1)

1. Explain android architecture with diagram.
 2. Draw a neat diagram of Life cycle of activity and explain in detail.

BACHELOR OF COMPUTER APPLICATIONS (B.C.A.)
SPECIALIZATION IN CYBER SECURITY (CS)
EXAMINATION : DECEMBER-2024/JANUARY-2025
SEMESTER - VI
Sub: Android / Current Trends in IT (CTIT)(BCA-642-18/BCA-642-20) /
Mobile Application Development (BCA-CS-642-20)

Date : 02/01/2025

Total Marks :60

Time: 10.00 am To 12.30 pm

Instructions:

1. All questions are compulsory unless and otherwise stated.
2. Bold figures to the right of every question are the maximum marks for that question.
3. Candidates are advised to attempt questions in order.
4. Answers written illegibly are likely to be marked zero.
5. Use of scientific calculators, Log tables, Mollier Charts is allowed.
6. Draw neat and labelled diagrams wherever necessary.

(5)

Q.1. Fill in the blanks.

1. In android, AVD stands for ____
 a) android debugging bridge
 c) android debug bridge
 b) android debug bond
 d) android debug bridge
2. Android manifest file is written in ____
 a) XML
 c) HTML
 b) Java
 d) JavaScript
3. In android, a message can be shown to the user using ____
 a) MessageBox
 c) Input box
 b) Prompt
 d) Toast
4. In android, ____ is a building block of user Interface.
 a) View
 c) View Group
 b) Emulator
 d) Simulator
5. In res folder ____ file/s are present.
 a) drawable
 c) mipmap
 b) values
 d) All of the above

Q.2. State True/False.

(5)

1. In android, user interface files (UI) are stored in mipmap folder.
2. Gradle is used to define settings for entire project.
3. OHA stands for Open Handset Alliance.
4. Content providers are used to navigate from one activity to another.

EXAMINATION : JUNE - 2022

SEMESTER - VI

Sub: Cloud Computing (BCA - 640-18) / Cloud Technology (BCA-646)

Date : 27/06/2022

Total Marks : 60

Time: 2.00 pm to 04.30 pm

Instructions:

1. All questions are compulsory unless otherwise stated.
2. Bold figures to the right of every question are the maximum marks for that question.
3. Candidates are advised to attempt questions in order.
4. Answers written illegibly are likely to be marked zero.
5. Use of scientific calculators, Log tables, Mollier Charts is allowed.
6. Draw neat and labelled diagrams wherever necessary.

(05)

Q.1. Fill in the blanks.

1. pwd command in linux displays _____
 a) user password
 b) password file content
 c) present working directory
 d) none of the mentioned
2. SAN stands for
 a) Storage Area Network
 b) Storage access Network
 c) Secured Area Network
 d) Secured access network
3. Which of the following is deployment model?
 a) public
 b) private
 c) hybrid
 d) All of the mentioned
4. Which of the following is most complete cloud computing service model?
 a) IaaS
 b) SaaS
 c) CaaS
 d) PaaS
5. Which concept was introduced by Cloud Computing
 a) Software-as-a-service.
 b) Platform-as-a-service
 c) Storage-as-a-service
 d) IT-as-a-service

(05)

Q.2. State True/False.

1. Cloud cannot be termed as Network or Internet.
2. NAS is Network Assigned Storage.
3. Cloud offers online data storage, infrastructure and application.
4. Virtualization is the key enabling technology of cloud computing.
5. DHCP Server provides an IP address.

Q.3. Answer the following. (Solve any 5)

(10)

1. What is network-as-a-service?
2. Define Hypervisor.
3. Define Hybrid Cloud.
4. What is business on demand?
5. Enlist different service models of Cloud Computing.
6. Define private cloud.

(30)

Q.4. Answer the following in detail. (Solve any 6)

1. What are risks associated in using cloud technology.
2. Explain deployment models of Cloud Computing. Explain using diagram.
3. Describe utility computing in detail.
4. What are the innovative characteristics of cloud technology?
5. Explain service models of Cloud Computing. Explain using diagram.
6. Explain the concept of SOA.
7. Explain virtualization using diagram.

(10)

Q.5. Answer the following in detail. (Solve any 1)

1. Explain VMware architecture.
 2. Explain Hyper-V architecture.

EXAMINATION : JUNE - 2022
SEMESTER - VI

Sub: Organizational Behavior (BCA – 643-18/634/644)

Date : 29/06/2022

Total Marks : 60

Time: 2.00 pm to 4.30 pm

Instructions:

1. All questions are compulsory unless and otherwise stated.
2. Bold figures to the right of every question are the maximum marks for that question.
3. Candidates are advised to attempt questions in order.
4. Answers written illegibly are likely to be marked zero.
5. Use of scientific calculators, Log tables, Mollier Charts is allowed.
6. Draw neat and labelled diagrams wherever necessary.

Q.1. Fill in the blanks.

(05)

1. Organizational behavior is...
a) Science
b) An Art
c) Science as well as an art
d) None
2. ----- pays a significant role in influencing satisfaction.
a) Environment
b) Organization culture
c) Wages
d) All of the above
3. Organizational behavior focuses at 3 things they are
a) Individual, group, structure
b) Employee, Employer, Management
c) Society, Organization, Nation
d) Nation and organization
4. Herzberg is known for his -----theory
a) Attribution theory
b) Two factor theory
c) Equality theory
d) Behavior theory
5. Taylor is known for his ----- management.
a) scientific
b) functional
c) structural
d) None of above

Q.2. State True/False.

(05)

1. Motivation cannot be measured
2. People are the most important resources of the organization
3. Attitude does not result in action
4. Most significant decisions are made by judgment rather than by a designed prescriptive model
5. The level of job satisfaction across groups is always constant

Q.3. Answer the following. (Solve any 5)

(10)

1. Define the term Job enrichment.
2. What do you understand about the word persona?
3. What is Halo effect?
4. What is power Motivation?
5. List any 3 needs of organization Behavior.
6. Which skills are necessary for Team building?

Q.4. Answer the following in detail. (Solve any 6)

(30)

1. Explain the psycho-analytic theory personality
2. What is attitude? Explain the various ways of changing attitude.
3. Write short note Ethics in Decision making
4. Illustrate any 5 principles of learning.
5. What is organization? Explain its need.
6. List out some sources of Job satisfaction
7. Write short note on "The big Five" Model.

Q.5. Answer the following in detail. (Solve any 1)

(10)

1. What is Motivation? Explain Maslow's theory of needs.
2. Explain few organizational approaches to reduce stress.

Q.1. Fill in the blanks.

(5)

1. _____ initially developed android.
a) Microsoft
b) HP
c) Google
d) Apple
2. _____ is used to compiling & packaging apps.
a) gradle
b) yes
c) interpreter
d) manifest
3. _____ is the android's virtual machine.
a) JVM
b) ART
c) Virtual Box
d) Dalvik
4. All activities & services are registered in _____.
a) build.gradle
b) android manifest.xml
c) settings.gradle
d) mainactivity.java
5. Intent in android is _____.
a) a type of service
b) a memory management tool
c) a debugging technique
d) a messaging object

(5)

Q.2. State True/False.

1. A fragment is sub activity.
2. There are bound & unbound types of services.
3. In android there are 3 menus.
4. In android JVM converts the code into Dalvik executables.
5. In android manifest file images are stored.

Q.3. Answer the following. (Solve any 5)

(10)

1. What is LogCat?
2. Write down the syntax of Toast.
3. What are the contents of manifest folder?
4. What is emulator in android?
5. What is DVM?
6. What do you mean by content provider?

Q.4. Answer the following in detail. (Solve any 6)

(30)

1. List methods in activity life cycle.
2. Explain android folder structure.
3. Write down the java code to add your friend's name from edit text to listview.
4. Explain different layouts in android.
5. Write down the Java code to create pop up menu.
6. List the layers in android architecture.
7. How to display image in an image view? (Write Java Code)

Q.5. Answer the following in detail. (Solve any 1)

(10)

1. Write down the java code to save records of students (roll, name) into SQLite database
2. Explain 2 types of intents with example.

Q.1. Fill in the blanks. (05)

1. JApplet inherits from _____
 a) Java Bean b) JPanel
 c) Java d) Applet
2. Swing are _____ components
 a) bulky b) lightweight
 c) heavy d) featherweight
3. Servlet API example is _____
 a) Unix b) Windows
 c) FTP d) email
4. Fullform of JWS is _____
 a) Java Windows Server b) Java Web Server
 c) Java World Server d) Java Wide Server
5. Datagram contains _____
 a) header and footer b) head and tail
 c) start and end d) header and payload

Q.2. State True/False. (05)

1. Java images are bitmapped GIF or JPEG files
2. Panels are subclass of java.awt.container
3. There are three kinds of windows
4. ODBC is easy to learn
5. Java applets can not read or write from the disk

Q.3. Answer the following. (Solve any 5) (10)

1. What is Set?
2. What is collection?
3. What is JDBC
4. What is protocol?
5. What is Windows?
6. What is two tier model?

Q.4. Answer the following in detail. (Solve any 6)

1. Write features of Java Beans
2. What is port
3. Write in detail the RMI Feature
4. What are three major features of JLabel
5. What is JPanel write in detail
6. What is ODBC?
7. Write in detail about Java Component model

(30)

Q.5. Answer the following in detail. (Solve any 1)

1. Write in detail about Basic Servlet structure
2. Write in detail MVC Architecture

BACHELOR OF COMPUTER APPLICATIONS (B.C.A.)
EXAMINATION : DECEMBER- 2023

SIXTH SEMESTER
 (Sub: BCA-646-20/ BCA-CS-646-20/BCA-646-18 Lab- Android/Lab-Current Trends in IT/ Mobile application Development)

Date : 18/12/2023 Total Marks : 60/30 Time: 10:00 am to 5:00 pm

Total Marks	30Marks	60Marks
		(for batch2015 to 2019)
Programme 1	15	20
Programme 2	15	20
Total	-	20

- 1) Design a mobile app for simple calculator.(Addition, subtraction, multiplication & division)

- 2) Design a mobile app demonstrating explicit intent.

-----X-----CUT-----
 Display a page containing List View having days of week in it. On click of any list item, toast should appear displaying selected day in it.

- 1) Display a page containing 2 EditTexts for username and password. When user clicks on submit save the record in the database.

-----X-----CUT-----
 1) Display a mobile app containing spinner having a list of courses. On click of any list item, display course name

- 2) Display a mobile app showing all methods of activity life cycle.

-----X-----CUT-----
 1) Design a mobile application to show context menu.
 2) Design a mobile application to dial a number using implicit intent.

-----X-----CUT-----
 1) Design a mobile application for music player using android services.
 2) Design a mobile application to calculate bill of a café.

-----X-----CUT-----
 1) Take two images. Design a mobile application to change the image on button click.(like toggle button)
 2) Design a mobile application to show linear & table layout.
